Animals/Livestock

Cattle Headgates

Least Protection

1. Headgate/stanchion is in poor condition.

2.

3. Headgate (stanchion) is part of the fence which allows only front (neck) restraint; stanchion is in good condition and operates as designed.

4.

5. Headgate is attached to a straight-sided chute; is in good condition and operates as designed; chute is attached to an alley or return lane.

Most Protection

| Item: | Item: | Item: | Item: | Item: |
|-------|-------|-------|-------|-------|
| O1 | O1 | O1 | O1 | O1 |
| O2 | O2 | O2 | O2 | O2 |
| O3 | O3 | O3 | O3 | O3 |
| O4 | O4 | O4 | O4 | O4 |
| O5 | O5 | O5 | O5 | O5 |
