## Pesticides and Chemicals

### Pesticide Application Methods

#### Least Protection

1. Licensed (or unlicensed) producer applies restricted use pesticides; producer does not monitor pest levels to determine pest control needs.
2. Licensed, producer applicator applies some restricted use pesticides; producer monitors pest levels to determine pest control needs.
3. Producer applicator applies non-restricted use pesticides only; professional crop consulting service monitors pest levels to determine pest control needs.
4. Producer employs commercially licensed and insured applicator; some restricted use pesticides used; professional crop consulting service used to determine pest control needs.
5. Producer employs commercially licensed and insured applicator; applies non-restricted pesticides only; professional crop consulting service used to determine pest control needs.

#### Most Protection

Item:	Item:	Item:	Item:	Item:
O1	O1	O1	O1	O1
O2	O2	O2	O2	O2
O3	O3	O3	O3	O3
O4	O4	O4	O4	O4
O5	O5	O5	O5	O5
